

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PRIMUS, quod sciam, Graduatorum Cantabrigiensium Catalogum edidit Georgius Borlase, primo ab anno 1659 ad annum 1787, secundo ab anno 1659 ad annum 1800. Secundus fuit Willelmus Hustler, qui nomina graduatorum evulgavit usque ad 1823. Tertius Josephus Romilly, qui annis 1846 et 1856 graduatorum nomina exhibuit, catalogum suum incipiens anno 1759.

In hac sexta editione, suadentibus syndicis praeli, qui benigne concesserunt ut typis et sumptibus Academicis imprimeretur, omissa sunt nomina omnium ante annum 1800. Exstat inter Academiæ archiva catalogus graduatorum omnium incipiens ab anno 1500, cura Willelmi Richardson S.T.P. Coll. Emmanuelis olim magister; ut hoc publici juris fiat magnopere cupiendum est; sed magis cupiendum quam sperandum.

In graduatorum catalogo annus gradui cuilibet subjectus semper notat annum in quo Senioritas Academica reservatur, qui sæpe posterior est anno admissionis. Qui admittuntur per annum ad titulum Baccalaurei in Artibus designati gradum suum inauguratione complent die secunda termini Paschalis sequentis: e. g. omnes sic admissi post diem sextam mensis Aprilis A.D. 1872 gradum suum complebunt die 19^{ma} mensis Aprilis A.D. 1873. Magistri Artium et Doctores in quavis facultate graduum suorum creationem obtinent comitiis maximis, i. e. "penultimo Martis Junii."
